Our Bounty program is extensive. There is something for everyone. Make sure not to compare our offer by percentage as we offer way more bounties and way more tokens with much higher value. We offered a lot, because we are doing this together and we want our ICO Investment Bank to succeed. The idea of having a global investment fund run on a decentralized smart contract platform is too cool to resist. We want our endeavor to over achieve on all fronts. Help us build tomorrow's way of investing.
